West Virginia Democrat Makes Charges Against Federal Officials.

Parkersburg, W. Va., Oct. 31.—George I. Neal, vice chairman of the Democratic state committee and active head of the Democratic campaign in this state, sent a telegram today to President Roosevelt complaining of the activity of certain federal officeholders in the campaign. The telegram follows:

"Federal officeholders in this state are making your position of not permitting pernicious political activity by federal officers the laughing stock of the state. I especially refer to Frank H. Tyre, marshal for the southern district; Charles D. Elliott, marshal for the northern district, and George M. Bowers, fish commissioner. Their pernicious political activity in this campaign is of common notoriety. We are ready with positive proof, at any time, of their guilt."

## SHE WANTED TO DIE.

Miss Josephine Butler Tries in Vain to Take Own Life.

Word has reached Topeka through friends of the attempted suicide of Miss Josephine Butler, which took place in Denver two weeks ago. Miss Butler's home is in Topeka and until about a month ago she was employed as a waitress at the Fred Harvey eating house in the Santa Fe depot.

It is a case of the same old story—disappointment in love. Miss Butler had become enamored of one Ralph Collins, a Topeka young man, a cigar-maker by trade, who was at that time employed by H. L. Tromp. During her stay at the Harvey house, Collins had paid her almost constant attention and had won her away from another lover to whom she had been engaged.

So great was her infatuation for Collins, that she left Topeka during the summer to get away from her other lover. She went to Raton, N. M., but the villain still pursued her, and she eluded him only by coming back to Topeka.

Collins left Topeka and went to Denver to work about a month ago. He called on Miss Butler at the Harvey house and offered to take her on a buggy ride, but it wasn't her afternoon off, and when refused a special leave for the afternoon, threw up her job for spite.

When she went to Kansas City and worked there for awhile. A friend accompanied her but as soon as her friends and relatives learned of their whereabouts, a brother went to Kansas City and induced her to return home. Then Miss Butler returned to Topeka, and borrowed enough money to take her to Denver. She secured a position in the Union Depot cafe.

But being with her lover didn't prove one grand sweet dream, for he tired of her and they quarreled. Afterwards he was found in company with another girl and Miss Butler was heartbroken.

She threw up her position and went to a Denver rooming house, moving all her effects there. Then on the afternoon of October 16, two weeks ago Friday, she tried to end her life. The chloroform route was selected. She drank the poison, but just as she put the fatal drops to her lips, a friend, Gertrude Moulton, entered the room and wrested the bottle from her. The police were notified, and her life was saved through the efforts of a police sergeant.

Before she was fully revived from the effects of the poison, during her delirium, she repeatedly cried for "Ralph." The police were unable to learn Ralph's identity. Miss Moulton knew but refused to tell even after being arrested.

Miss Butler is well again and is back at her old position in Denver, but it isn't known what effect her attempted self destruction had on Ralph.

**At the Novelty Next Week.**

Notwithstanding the bill at the Novelty theater the past week was declared by many to be the best bill ever offered in Topeka, the management comes forward with the promise that the programme to be presented during the next week, beginning Monday's matinee, will prove every bit as strong and pleasing as the bill which closes tonight.

In order to secure the best possible bookings for the Novelty this season General Manager Miller of the Novelty went to Chicago last week and arranged for a fine list of attractions and the success of his visit will be evidenced in the bill for next week.

## One of the big headline features will be

the celebrated Hawaiian quintet, which is conceded to be one of the most entertaining musical organizations in vaudeville. This quintet is a favorite wherever it appears and the announcement of its coming to the Novelty next week means that a treat is in store for the patrons of that playhouse.

Herbert's famous troupe of highly trained dogs is another of the star attractions of next week's bill, the Novelty. In this act there will be presented the sensational feature of a remarkably intelligent dog "loping the loop" in addition to other interesting feats. An abundance of comedy is promised in the acts of Clayton and Drew and the Markee brothers. Clayton and Drew are reputed to be one of the best travesty teams in the business and their act will keep the audience in a roar of laughter from start to finish, for their travesties are fresh and really funny. The Markee brothers also have a sure cure for the "blues" in their musical comedy feature, which has given them a prominent place among the fun-makers of vaudeville.

Mr. P. B. Hamlin will sing illustrated ballads and an entirely new series of moving pictures will be shown by the viscope.

A ladies' souvenir matinee will be given next Friday, when every lady present will receive a souvenir. The crush at yesterday's souvenir matinee is evidence of the popularity of this institution at the Novelty, and the management states that if the patronage justifies it an additional matinee will be appointed when ladies will be given presents. Attention is called to the fact that two performances are given at the Novelty each evening, the first beginning at 7:45 and the second at 9:15.

**WILL WORK FOR VOTE.**

Kansas Suffragists to Have Headquarters in Legislature.

The meeting of the Equal Suffrage association at the Unity church last night, proved a very enthusiastic meeting and a motion carried without a voice of dissension to establish headquarters in the state house during the coming winter. These headquarters will be maintained until both houses pass an equal suffrage bill if they do.

The meeting was not devoid of politics. Walter Roscoe Stubbs, Republican candidate for governor, was given a great sendoff, for during the last session of the legislature he used his influence to work an equal suffrage measure through the house.

The fact that this measure was side tracked in the senate brought forth volumes of abuse upon the senate and the senate lodge.

County Attorney John Schenck was strongly indorsed for his effective work in cleaning up Shawnee county. W. F. Schock, candidate for probate judge, was present and assured the women that he knew the difference between a drug store and a Joint. E. B. Cowgill, president of the State Temperance union, was also present and made a short address on law and order and told the ladies that when they got a chance to vote that the problem of closing the saloons would be forever settled. Incidentally there were two other men present, while the ladies numbered about a hundred.

**COULD NOT SCORE.**

High School Holds Washburn Scrubs in a Fierce Game.

The feature of yesterday's game between the Washburn scrubs and the Topeka high school teams was the fierce and active playing of the Highs, who while outweighed several pounds to the man in both lines, making the back field, held their goal line successfully against the assaults of Millice's infants. The playing of the Highs was a real treat for the spectators. The game was a hard fought game. The final score was 0 to 0, or in other words, there was no final score.

Washburn had the ball in High territory all through the first half and three times an on-side kick went for a touch back with less than twenty yards to gain. On straight football the Highs played like bull terriers and Washburn failed in nearly every attempt to pierce their line, making their gains chiefly by the forward pass, on-side kicks and the tendency of the Highs to fumble.

The Highs reversed the field of operations in the second half by keeping the ball in Washburn territory most of the time. Washburn started out, smarting under the severe tongue lashing given them by Coach Millice during the intermission, by rushing the ball down to the High's fifteen yard line. They were held for downs. High took the ball and by straight line bucking carried it to Washburn's thirty yard line where they lost it on a forward pass. Washburn punted to the middle of the field and Carle carried the ball back forty yards before he was downed. High fought hard for a touchdown at this point, but was held on two attempts and Sealer's drop kick for a goal went wide. Time was called with the ball on Washburn's forty yard line. In the last minute of play Richardson, who had caught a punt, slipped and fell and his head was hurt. He had to be carried from the field. Washburn's exhibition of punting aroused pleasant anticipations for the efficiency of this important factor in next year's varsity team.

**POLICE WERE ENJOINED.**

Prize Fight Pulled Off in New York Last Night.

New York, Oct. 31.—Charlie Griffin of Australia had the better of a six round bout with Bert Keyes of New York at the National Sporting club here last night. In their last meeting Keyes knocked out Griffin in the fifth round. The match was put on in place of the scheduled match between Jack O'Brien and Sam Langford, which was postponed for a week. The club operated last night under an injunction forbidding the police to interfere with the affair.
